

Motivation Letter Sample for Event Management Internship

Dear Sirs, Madams,

I refer to the job vacancy which I found on the jobseurope.net website. I recently have completed my American Bachelor degree in management as my first major, second major in median graphics, and my minor in international relations.

I am interested in learning and experiencing new skills and how to manage groups. I have been organizing meetings, conferences and volunteered in workshops which were organized by the NDI (National Democratic Institute) in Bosnia and Herzegovina. During the workshops, which we organized for the session, we had to deal with around hundred visitors. I was ordered to do things that I did not expect I would have to do, however I was willing to accept. For sure people need flexibility, comfort and to always stay calm.

My nationality is German and I currently live in Bremen. If you have any questions please do not hesitate to ask.

A consideration of my application would be appreciated.

Sincerely yours,

Karoline Raat
